Aim of the Trip :

For Students of Bengali literature, the life and works of Rabindranath Tagore are of utmost importance and Shantiniketan being the place for most of his creations becomes a must visit for the students.

Not only Rabindranath, Tarashankar Bandyopadhyay is another notable figure of Bengali Literature. His writings revolve around 'Rarh Bangla' and the area of Labhpur and surroundings represents the land which he portrays in his works.

Outcome of the Trip:-

Shantiniketan and The Visva Bharati University resonate in his thinking & philosophy which is reflected in his works. Our students got a chance to visit and explore the museum which preserves the memories of Rabindranath. Getting a glimpse of the replica of the Noble Prize received by Tagore is a lifetime experience for the young minds.

Novels like 'Hansuli Banker Upokatha' and 'Dhatridevota' written by Tarashankar are included in the syllabus. Witnessing the bank (Curve) of the Hansuli River on the backdrop of Dhatridevota makes the descriptions come into reality from the pages of the Novels.

The tour has opened the path of imagination for the students regarding their favourite writers.
